

## **09/30/18 – Unity and Baha’i: A Celebration of Bridge Building**

What does it mean to you to be a “bridge builder?”

What are the obstacles that stop your “bridge building” and how do you overcome them?

Both Unity and Baha’i traditions speak about the oneness of God, humanity, and religion. Both traditions also call for our actions to be in alignment with our beliefs. Share what actions you currently take to demonstrate/create oneness.

Unity teaches that underneath all creation/experience is a Divine Idea. i.e. love, understanding, faith, health, prosperity, generosity, imagination, discernment, wisdom, trust, accountability, life, order, zeal, etc. These are many of the tools needed for “bridge building.” Which tool do you most often use, and which Divine Idea could use greater attention?
